

Little Polar Bear – Where Are You Going?

A. General notes on the stage set-up and concept

'Little Polar Bear' is performed by the puppeteer Olga Blank. A Fithe technician always accompanies the puppeteer, sets up the stage equipment and controls the music and lighting.

The standard total set-up time is 3 hours, and the standard dismantling time is 1.5 hours.

The stage set consists of two main parts, which are separated by a blue curtain. The blue curtain is raised and lowered manually several times during the play using a specially constructed pulley system. The front part of the stage set is a convertible snow landscape, the other part of the stage set, behind the blue curtain, is a jungle landscape.

The snowy landscape consists of a thin fabric attached to a long wooden strip and is supported by two light wooden crates stacked on top of each other.

The jungle landscape is made up of four trolleys on wheels, which are set up in a row next to each other. Each trolley is a unit assembled from aluminium profiles and represents a section of the jungle landscape.

When fully assembled, the jungle landscape is 4.40 metres wide, 2.80 metres high and 0.50 metres deep.

The technician also works as a co-puppeteer and brings an eagle puppet and a whale puppet to the stage.

B. Technical Details, Structure and Overview of the Equipment

1. Electrical Requirements

- 2 independent circuits

2. Lighting

- 8 x Cameo TS 40 WW LED Theatre-Spot
- 3 x ADJ H2O Water-Effect Lamp

3. Sound System

- 2 x Genelec 8030

4. Overview of the Equipment (Basic Equipment)

- Audio:
 - o RCF F 12XR, 12-channel-mixer
 - o iPad with 3,5mm audio jack for music playback
 - o Microphone:
 - AKG PW Presenter with pocket transmitter and CK 99 L lavalier microphone
 - o 2 x Genelec 8030
 - o 2x K&M 21449 stand for speakers
- Lighting:
 - o Stairville DDC-12 DMX Controller
 - o 8 x Cameo TS 40 WW LED Theatre-Spot
 - o 3 x ADJ H2O Water-Effect Lamp
- Scenery:
 - o 2 x Black background fabrics on 50mm pipes (3m or 2,5m)
 - o Blue fabric 4,40m x 4m
 - o 1x Manfrotto 007BSU stand
 - o Pipe system with multiple 50mm pipes (3m & 2,5m long)
 - o 4x wind-up
- Miscellaneous:
 - o Power cable 3m, 5m, 10m
 - o Audio cable (XLR); DMX cable (3-pin-XLR)
 - o Multiple sockets
